EDUCATION

University of Nebraska-Lincoln

Software Engineering

Lincoln, NE

August 2022-December 2026

- Minors: Math.
- Involvements: Phi Kappa Theta Philanthropy Chair, NASA Suits Team Lead

Relevant Coursework:

- Data Structures and Algorithms (Javascript), Software Engineering I-II (Java/Python/SQL), Computer Systems Engineering (C), Multivariable Calculus, Discrete Math, Operating Systems (C), Statistics & Applications, Linear Algebra, Software Design & Architecture (Typescript, C#), Compiler Construction, Wireless Communication Networks, Secure Software Engineering

Current GPA: 3.66/4.0

Elkhorn South High School

Omaha, NE

Graduated with Honors. National Honor Society. GPA: 3.8/4.0

August 2018-May 2022

TECHNICAL EXPERIENCE

Sandhills Global

Lincoln, NE

Software Development Intern

January 2024-Present

- Planned, tested and delivered on an internal customer relationship management (CRM) program utilizing VB, C#.net and SQL
- Redesigned and implemented the CRM program in a MVC web application to be accessed in pre-existing task order systems
- Allocated time accordingly to ensure tasks were completed in time for weekly sprints, delivering well-constructed briefs

Technologies Used: Visual Basic/C#.NET, JavaScript, Razor HTML/CSS, SQL

Business Analyst Intern

June 2022-January 2024

- Developed and managed task order systems for internal employee communication using E-TOS and SNOW languages
- Provided valuable input to help fellow employees figure out complex issues and assisted in training process of new employees
- Led conversion project to take E-TOS billing processes and implement them into modern SNOW task order architecture
- Communicated with upper management across the company to deliver their vision to best fit their department's needs

Technologies Used: E-TOS, SNOW

Jeffrey S. Raikes Design Studio Capstone

Lincoln, NE

DMSi Development Manager

August 2025-Present

- Leading the design of a machine learning system for multi-label classification across relational database tables
- Developing a FastAPI backend with a PostgreSQL database to serve and manage model predictions
- Building and training a classification model with scikit-learn, incorporating data preprocessing and evaluation workflows

Technologies Used: Python, FastAPI, PostgreSQL, scikit-learn

Kiewit Developer

August 2024-May 2025

- Built a VR simulation for "A Day in the Life of a Field Engineer", transforming a concept into a fully immersive experience
- Integrated tools such as Unity, OpenXR, SideQuest, and Plastic SCM for development and deployment on the Quest 3 headset
- Recorded and processed 360° footage and incorporated it into the virtual reality experience

Technologies Used: Unity, C#, OpenXR, SideQuest, Plastic SCM, Meta Quest 3

NHSOA Bill Lewis Scholarship Website

Lincoln, NE

Developer

January 2025-May 2025

- Designed and implemented a responsive website using a React Router frontend to deliver a user-friendly interface
- Collaborated with stakeholders in meetings and usability tests, incorporating feedback to refine features and navigation

Technologies Used: React, Typescript, HTML/CSS

SKILLS

Software: VS Code, Visual Studio, Eclipse, PyCharm, GitHub, GitLab, Outlook, Excel, Word, LaTeX

Coding Languages: Proficient in Java, C#.NET, Javascript, HTML/CSS. Familiar with Python, Django, C, SQL, Unity

EXTRACURRICULARS AND INVOLVEMENTS

NASA SUITS

Lincoln, NE

Team and Outreach Lead

August 2023-May 2024

- Coded AR/VR programs of a model that interacted with its general environment using Unity and C#
- Oversaw a team of software developers and held weekly sprints to discuss progress and planning for next sprint

Technologies Used: Unity, C#, GitHub

Phi Kappa Theta Fraternity

Lincoln, NE

Philanthropy Chair

December 2022-May 2023

- Planned large scale events with other Greek houses to fundraise donations to Children's Hospital
- Managed budgets and volunteering to ensure resources were in place for philanthropy events

Technology Used: Microsoft Excel

Memories for Kids

Omaha, NE

Youth Board Member

August 2018- 2022

- Served as a board member of the Memory for Kids youth charity, an organization that fundraises for parents with stage IV cancer to allow them the chance to create lifelong memories for their children
- Provided input on important planning decisions for large scale fundraising events to ensure the best outcome possible
